WDD 231 – Chamber of Commerce Site Plan

1. Site Name

Caucaia Connect Chamber of Commerce

Tagline: Connecting local businesses. Strengthening our community.

The name represents connection, collaboration, and economic growth among businesses in Caucaia, Ceará, Brazil.

2. Site Purpose

The Caucaia Connect Chamber of Commerce website will serve as a digital platform to promote local businesses, encourage entrepreneurship, and strengthen the economic development of Caucaia, Ceará.

The website will provide a business directory, information about local companies, community events, membership opportunities, and resources for entrepreneurs.

Its main purpose is to connect business owners, residents, investors, and visitors while increasing the visibility of local businesses and encouraging people to support the local economy.

3. Target Market

The website targets:

- Small and medium-sized business owners in Caucaia.
- Entrepreneurs interested in starting or expanding a business.
- Residents looking for local products and services.
- Investors and companies interested in business opportunities in the region.
- Visitors who want to discover local businesses and community activities.

4. Site Goals

- Increase the visibility of local businesses in Caucaia.
- Encourage networking and collaboration among entrepreneurs.
- Provide an accessible directory of local companies and services.
- Promote local events, business opportunities, and community activities.
- Attract new members and support local economic development.

5. User Personas

Persona 1 – Small Business Owner

Name: Mariana Oliveira
Age: 34
Occupation: Small business owner

Mariana owns a clothing store in Caucaia. She wants to increase her business visibility, connect with other entrepreneurs, and discover opportunities to promote her products and services.

Persona 2 – Local Resident

Name: Rafael Santos
Age: 27
Occupation: University student

Rafael lives in Caucaia and wants to find reliable local businesses, restaurants, services, and events. He prefers websites that are easy to navigate and provide clear information.

Persona 3 – Potential Investor

Name: Carlos Mendes
Age: 45
Occupation: Business consultant

Carlos is interested in exploring business opportunities in Caucaia. He wants to understand the local business environment, identify potential partners, and learn more about the region's economic activities.

6. Scenarios

1. A local entrepreneur wants to promote their company and searches the directory to learn how to become a chamber member.
2. A resident needs to find a local service provider and visits the business directory to explore available companies.
3. A visitor wants to learn about business opportunities in Caucaia and explores the website to discover local companies and economic activities.
4. A business owner wants to connect with other entrepreneurs and searches for networking events and community activities.

7. SEO Plan

The website will use search engine optimization strategies to improve its visibility:

- Include relevant keywords such as "Caucaia businesses," "local businesses in Caucaia," "Caucaia Ceará," and "business directory."
- Use descriptive page titles and meta descriptions.
- Include appropriate alternative text for images.
- Use semantic HTML elements and accessible navigation.
- Implement Open Graph metadata for social media sharing.
- Use descriptive URLs and appropriate heading structures.
- Optimize images for performance and responsive display.

8. Design Brief

Color Scheme

Role	Color	Hex Code
Primary	Blue	#4c72ff
Secondary	Soft Blue	#7c98ff
Light Background	Light Blue	#c8edf4
Main Background	Off White	#fefdfd
Text and Headings	Dark Charcoal	#1d1f26
Accent	Black	#000000

Typography

- **Headings:** Roca Two
- **Body Text:** Glacial Indifference
- **Decorative Elements:** Intro Script

The typography will create a modern, clean, and welcoming visual identity.

Visual Style

The website will feature a clean and modern design inspired by the IS | Isadora Paula creative identity.

It will use generous spacing, rounded cards, subtle visual details, clear typography, and a blue color palette.

The overall experience should communicate professionalism, creativity, trust, and community.

9. Site Map

The website will contain four main pages:

- **Home:** Introduction to Caucaia Connect, featured businesses, community highlights, and calls to action.
- **Directory:** A collection of local businesses displayed in grid or list view.
- **Join:** Membership information, benefits, and an application form.
- **Discover:** Information about Caucaia, local attractions, economic activities, and community resources.
